HELPING YOUR BUSINESS WORK BETTER

Whatever your particular need, Essentra has a securing solution.

Working with you, we bring together the best products, ideas and distribution. Our reliable global service means we will deliver.

Why work with Essentra?

Globalised – Access our extensive global distribution network to support your international supply chain.

Manufacturing – Source directly from Essentra to cut layers and cost out of your supply chain.

Compliance – Maintain peace of mind with our full range of ISO 17712:2013 compliant seals.

Customisation – Enhance supply chain security with flexible, tailored solutions.

Support – Talk to your local Essentra seal experts today who will help you find your ideal securing solution.

Our global reach extends to

33

countries across three regions, shipping to more than 75 countries

Working with **80%** of the world's top **3PLs**

(Armstrong & Associates, 2015)

PRODUCT FAMILIES

Bolt Seals
TOUGH AND SECURE

High physical protection and corrosion resistant, our bolt seals are the seal of choice within ISO 17712 compliant supply chains.

Cable Seals
FLEXIBLE AND VERSATILE

High physical protection, ISO 17712 compliant and flexibility of fit, cable seals offer solutions for a variety of supply chain applications.

Fixed Length Seals
SIMPLE AND EFFICIENT

Fixed length seals are the perfect solution for high-vibration haulage applications, minimising accidental in-transit breakage.

Pull Tight Seals
FLEXIBLE AND VERSATILE

A variety of tensile strengths and removal methods mean pull tight seals can be used on multiple applications. Product customisation options enable increased security and branding within the supply chain.

Special Purpose Seals
UNIQUE AND PRACTICAL

Designed and manufactured for specific uses and industries, as not every seal is right for every industry and application. Our range includes tote box seals, label seals and pouches.

A CLOSER LOOK

BOLT SEALS

High physical protection and corrosion resistant, our bolt seals are the seal of choice within ISO 17712 compliant supply chains.

Customising your Bolt Seal

PRINTING OPTIONS

Infinite printing options give the possibility to increase branding and make seals harder to copy, enhancing supply chain security.

Customisable
- Custom serial numbers ■ Barcoding ■ Logo outline

BASE COLOUR OPTIONS

Use our colour options to group, easily identify and protect areas of the supply chain. Colour is also an effective way to extend your company brand.

Customisable

COATING OPTIONS

The ability to coat the bolt seal pin increases the product's resistance to spin attacks whilst increasing the number of potential printing points.

Customisable
- Coated Pin (CP) ■ Uncoated Pin (UP) - Einlock only

PRINT METHOD

Different print types can be used during the printing process. Selecting different print methods will change the aesthetics and durability of the finish.

Customisable
- Laser ■ Silkscreen ■ Inkjet

Unolock

HIGHEST LEVEL SECURITY BOLT SEAL

Material:
- ABS material with see-through PC base
- Pin and insert – high strength steel
- Polypropylene pin coating

Features:
- Anti-tamper print body
- Pin and body printing
- Anti-spin technology

C-TPAT COMPLIANT

Product Code:	ISO 17712-HS	Tensile Strength	Dimension	Packaging Box Quantity
UL808A	Yes	>1000KG	8mm bare pin diameter x 80mm length	250 pcs, 15.3KG

Durolock

ECONOMIC COATED BOLT SEAL

Material:
- ABS material with see-through PC base
- Pin and insert – high strength steel
- Polypropylene pin coating

Features:
- Economically designed fully coated bolt seal
- Transparent polycarbonate base
- Anti-spin technology

C-TPAT COMPLIANT

Product Code:	ISO 17712-HS	Tensile Strength	Dimension	Packaging Box Quantity
DR078B	Yes	>1000KG	8mm bare pin diameter x 78mm length	250 pcs, 17.4KG

Einlock

ENTRY LEVEL WITH UNCOATED PIN

Material:
- ABS material with see-through PC base
- Pin and insert – high strength steel

Features:
- Uncoated pin
- Anti-spin technology

Product Code:	ISO 17712-HS	Tensile Strength	Dimension	Packaging Box Quantity
EN088C	No	>1000KG	8mm bare pin diameter x 80mm length	250 pcs, 13.2KG

A CLOSER LOOK

PULL TIGHT SEALS

A variety of tensile strengths and removal methods mean pull tight seals can be used on multiple applications. Product customisation options enable increased security and branding within the supply chain.

Customising your Pull Tight Seal

STRAP TYPE
Different strap types for a variety of solutions, with a barbed strap offering more grip on applications such as mail sacks.
Customisable
■ Barbed ■ Round ■ Flat

INSERT TYPE
Refers to the locking mechanism of the seal. Acetal inserts offer increased tensile strength, while metal inserts are even stronger, resisting heat attack.
Customisable
■ No Insert ■ Acetal ■ Metal

TAG DIMENSIONS
A choice of tag dimensions gives space for customised printing, with bigger tags supporting more complex prints.

TEAR OFF
A pre-defined break point lets you release the seal away from the locking mechanism. This allows for hand removal on higher-break strength seals, avoiding the need for full tensile strength.
Customisable
■ Tear off ■ No tear off

SEAL LENGTH
Different lengths create a suitable solution for a variety of applications.
Customisable
150 / 200 / 220 / 250 / 300 / 350 / 400 / 500mm

BASE COLOUR OPTIONS
Use our colour options to group, easily identify and protect areas of the supply chain. Colour is also an effective way to extend your company brand.
Customisable

PRINT METHOD
Different print types can be used during the printing process. Selecting different print methods will change the aesthetics and durability of the finish.
Customisable
■ Hot stamp ■ Thermal
■ Laser ■ Silkscreen

PERSONALISATION
Infinite printing options allow for branding while reducing copy ability and enhancing supply chain security. Custom printing barcodes can also provide automated reading of serial numbers.
Customisable
■ Custom serial numbers
■ Barcoding ■ Logo outline
■ Full logo ■ Colour logo
